INTRODUCTION

Software plays a central role in almost all aspects of communications, manufacturing, banking and finance, transportation, entertainment, medicine, agriculture, and law.

Department of Software Engineering at Ibadat International University, Islamabad is serving the community by offering program which provides practical as well as fundamental

knowledge for students who want to become software engineers and advance their skills. Students will learn methodologies to help them specify, develop, test, maintain and manage complex software systems.

CAREER PROSPECTS

Various opportunities are available for our students as Software Engineers, System Analysts, Requirements Engineers, Software Architects, Quality Analysts, and Project Managers.

The graduates will help to develop programs and softwares for telecommunications, financial systems, aeronautics, medical devices, transportation systems, banking and various government organizations

ACCREDITATION:

Software Engineering program is accredited by the Higher Education Commission (HEC) & National Computing Education Accreditation Council (NCEAC).
